

Editorial Preface

Journal of Advanced Research in Industrial Automation and Cyber-Physical Systems is an international forum for the publication and dissemination of original work which contributes to greater scientific understanding in the area of industrial automation and cyber-physical systems. The journal reports principally the achievements spanning the interdisciplinary field of applied researches. The scope of the journal, in the context of industry 4.0, includes advanced control systems, robotics, automation, artificial intelligence, machine vision, embedded and real-time systems, operational technology, big data in manufacturing processes, smart decentralized manufacturing, electronic packaging and manufacturing.

Editorial Board

Editor-in-Chief:

Dr. Ahmad Yusairi Bani Hashim
Universiti Teknikal Malaysia Melaka, Malaysia

Associate Editors:

Dr. Zamberi Jamaludin
Universiti Teknikal Malaysia Melaka, Malaysia

Dr. Silah Hayati Kamsani
Universiti Teknikal Malaysia Melaka, Malaysia

Dr. Nur Aidawaty Rafan
Universiti Teknikal Malaysia Melaka, Malaysia

Dr. Syamimi binti Shamsuddin
Universiti Teknikal Malaysia Melaka, Malaysia

Dr. Nor Azwadi Che Sidik
Universiti Teknologi Malaysia, Malaysia

Dr. Mohd Nazmin bin Maslan

Universiti Teknikal Malaysia Melaka, Malaysia

Ir. Dr.-Ing. Azrul Azwan bin Abdul Rahman

Universiti Teknikal Malaysia Melaka, Malaysia

Mohd Nazrin bin Muhammad

Universiti Teknikal Malaysia Melaka, Malaysia
