

Editorial Preface

We would like to present, with great pleasure, the inaugural volume of a new scholarly journal, Malaysian Journal on Composites Science & Manufacturing. This journal offers current research reports in the field of composites science, engineering, technology and manufacturing. The scope of the journal encompasses the applied science and manufacturing technology of composite materials includes synthesis & fabrication, processes, design, industrial engineering and automation.

Malaysian Journal on Composites Science & Manufacturing focuses on original high quality research, review articles and case studies. This is to provide a platform for researchers, engineers, technologists and academician as well as industrial professionals from all over the world to present their summary of current research in the array of an applied science and manufacturing engineering.

It is our hope that this fine collection of research reports will be a valuable resource for Malaysian Journal on Composites Science & Manufacturing readers and will stimulate further research into the wide area of composites science, engineering, technology and manufacturing.
